

Community Formula Flakes

General information

This delicious blend of the finest ingredients is a smart mix of seafood and vegetable protein. The challenge here was to elaborate a flake for fish with very different needs often coming from very different origins. This formula stimulates appetite, coloration and breeding in freshwater community tanks. Key ingredients include fresh fish protein and fresh seafood: salmon, plankton, squid, krill, clams, kelp, herring, brine shrimp. A delicious blend of the finest ingredients, ideal for the freshwater community tank.

Feed as much as your fish will eat in 2-3 minutes. Distribution 3-4 times per day.
