

Discus Baby Balance

General information

Discus Baby Balance is a highly digestible and energetic mix of attractive components to support strong and healthy growth in young discus fish. Ingredients like finely ground beef heart, spinach, mussels, bloodworms and fish eggs provide all the necessary nutritional building blocks for a smooth and balanced growth. The added spirulina contains natural pigments for optimal coloration, and the garlic will improve the pathogen resistance of the young discus fish. It's a softly bounded and finely grinded food, specially adjusted to the feeding habits of Baby Discus.

Ingrediënts
